PROFESSIONAL EXPERIENCE

Pilgrim Consulting, Franklin, TN — Software Developer / Automation Engineer

April 2019 - Present

Worked as an Automation Engineer on an existing project for a financial institution, and on a green field project for an ecommerce application built with ASP.NET Core MVC 2.2.

Architected and built out Automation Frameworks using Nodejs, WebDriverIO, and Cypress.

Served as a Software Developer for a medical office supply ecommerce application utilizing ASP.NET Boilerplate, React, and TypeScript.

Performed development on an ecommerce application utilizing ASP.NET Core MVC 2.2 and Vue.

RM Plumbing, Nashville, TN — Field Supervisor

December 2015 - July 2018

Managed a small team of plumbers and oversaw multiple residential and commercial projects.

Chick-Fil-A, Louisville, KY — Team Leader

August 2012 - December 2015

Managed a diverse group of team members, met Corporate standards, and created and improved Dining Room policies and practices to ensure customer satisfaction and business efficiency.
